	Effects of water pollution		
	Control measures of water pollution		

Abstract :-

water pollution in india is a major problem in recent years due to industrialization and urbanization in india this problem has become gigantic

Right to access water is a basic human right Indian constitution does not make this right a specific right . Article 21 of the Constitution of India provided that every person has that right to life of a human can not be sustained with polluted water this article embodied in it.

~~the right to pure water of drinking pollution free water in~~ is the only hope for the healthy life ~~the root cause of a number of disease~~ is the polluted the water polluted water doesn't come from a single source article 47 imposes duty on the state to raise the level of nutrition and the standard of living including improvement of public health it is the duty of the state to provide pure water to the public.

It is also the duty of every citizen under article 51 (A) g to protect and improve the natural environment including forests, lake river and wildlife and to have compassion for living creature.
